

EarthLink® Enterprise T1/T3

Take your business to the next level—
with dedicated Internet access

Make your business stronger, faster, and more efficient.

To be competitive in today's marketplace, you need a high-performance Internet service designed especially for business. EarthLink understands that accessing information quickly, instantly transferring large files, and conducting online research is essential to staying ahead of the competition. That's why we offer reliable, dedicated high-speed connections designed to take businesses like yours to the next level.

Professional solutions from a name you can trust.

Whether you're in the process of growing your business, or already have hundreds of users on your own LAN, an EarthLink T1, fractional T1, T3, or OC3 connection is just what you need. Robust and reliable, you'll have the bandwidth your business demands to support applications such as hosting FTP, email, and e-commerce Web sites. And EarthLink's commitment to service means you can count on fast installation and a guaranteed service level agreement of 99.99% uptime. It's just what you'd expect from EarthLink, the business-connection experts with over 10 years of Internet experience.

With an EarthLink Enterprise T1/T3 connection, you can count on:

- **Elite Internet access:** our most robust, reliable, low-latency business-class Internet connection
- **Nationwide coverage:** no distance/technical-related connectivity limitations
- **Connect your entire office:** single connection to the Internet for your LAN (Local Area Network)
- **Performance guarantees:** our industry-leading SLA guarantees 99.99% uptime
- **Professional installation:** ensures your service is set up right
- **Priority Business Support:** our dedicated business team is available 24/7
- **Specialized customer service:** each account has a dedicated account manager to assist your needs
- **Router configuration, shipment, and testing:** fully configured router prior to installation
- **T1 Router with built-in firewall:** business-class protection against security threats
- **Up to 128 IP Addresses*:** host your own email, Web, VPN, and FTP servers

* with justification

Premier Service and Support Exclusive to Enterprise T1/T3 Customers

Once your order is placed:

- An Installation Coordinator will personally manage the installation of your new circuit—coordinating installation date, LEC delivery of your local loop, and turn-up of Internet service.
- Our network analysts will custom-configure and ship your router prior to your installation date along with testing and verifying your Internet connection upon turn-up of service.
- You will be assigned a specific Account Manager Specialist to handle any of your customer service needs.

Value-Added Services

for additional efficiency and productivity:

- Domain name registration*
- Additional static IP addresses**
- Network newsreader access
- Field technician on-site visit†
- Router and firewall configuration

Additional Business Services from EarthLink

to meet your business' growing needs:

- Wireless Email and Internet Services
- Web Hosting
- E-Commerce
- Norton AntiVirus™ for Business

Take your business connection—and business—to the next level with an EarthLink T1 or T3 dedicated connection!
